

The Affordable Housing Roster contains a list of private properties developed, or rehabilitated with CRA/LA assistance. **Some of these buildings may not have any vacancies at this time.** Therefore, please contact the Property Management Agent at the property to inquire about the availability of a unit or the criteria/possibility of being placed on the waiting list rather than traveling to the property. **Users of this information are cautioned that most of the properties on this Roster have lengthy wait lists.**

These buildings contain units for very-low, low and moderate income individuals or families, as well as market rate units. Therefore, when making contact with the Property Management Agents please specify the type of unit that you are interested in (very-low, low or moderate). The Property Management Agent will advise you of the qualifying income and rental rates for these units.

Please note that certain types of affordable housing developed for households with special needs (battered women and persons with disabilities) are normally accessed through non-profit or government agencies. The Roster also does not contain affordable housing developed by other public agencies; however, the City of Los Angeles has a guide to additional affordable housing resources in the Los Angeles area available by calling (213) 808-8888 or (866) 557-7368 (for outside 213 area code). For information about other City of Los Angeles Services call 311. For Social Services information call 211.
